

Schedule – Product and Services

Applicable to the following taxonomies: **ESEF ESG DKGAAP**

Annual Reporting's year(s) **2024**

I. INCLUDED SERVICES AND FUNCTIONALITIES

Service/ functionality	Description
Cloud platform	It is delivered as a secure "AS IS" cloud platform. No local installation and/or updates are needed.
Online training material - service	Access to Supplier's online training material (Knowledge Base articles).
Operational Support 24/7 - service	Refers exclusively to the Software being operational.
Multi-language files - function *	Access to validating and reading reporting packages in multiple official European languages.
Inspections	Customer is able to upload and inspect annual financial report packages that are related to the same company (entity) and under the agreed taxonomy, for an unlimited number of times. The maximum number of entities that can be uploaded and inspected is defined within the subscription/agreement.
Onboarding (One online meeting)	Possibility to schedule one online meeting with maximum duration of one (1) hour between the Customer and one of ParsePort's specialists, being a training session. Such meetings can be recorded and forwarded for later review. A new meeting can be purchased at any point at ParsePort's current hourly rate if needed or wanted by the Customer.
Unlimited credentials	The client can create and manage credentials (related to one unique domain) to access our Platform as needed.
*Functionalities (items ending on "- function"): all the above functionalities are made available to the Customer "AS IS" and without support from ParsePort. However, support is available to be purchased separately.	

II. AVAILABLE ADD-ONS (to be purchased separately)

Service/ functionality	Description
Product Support - service	Access to Product Support, including validation issues, mapping, and general product-related questions will be charged by the hour.

This Schedule might be subject to modifications due to changes in the applicable laws and regulations for reporting according to the applicable taxonomies. Please contact ParsePort at info@parseport.com for information about different reporting years.
